### Budget 'Like Never Before' - 2021 Budget Analysis cument aims to analyse the budget announcements n a few area

This document aims to analyse the budget announcements in a few areas such as external borrowings/debt, allocations (and misses) for strengthening the public banking, steps taken to address the key issues like non-performing assets, privatisation, and policy directions and allocations in infrastructure and energy sectors. While the document limits its scope to these areas/sectors, we do believe that this is truly a 'budget like never before' that alienates itself from the portentous reality faced by the country and its citizens and their demands. Read

# Selling the house to have alcohol: Budget 2021-22

We have come across according selling the property to have their drink. The Central Govt seems to be doing similar things. Public Sector is like the house construct with great ambition. But that is being sold in a platter to few favourite corporates. If everything is for sale and if Govt will not perform its duties to its citizens what for there is a Govt? Privatise
Parliament also. What for you
collect taxes from all of us? Time the Finance Minister and her er to go. Read more...

### The Great Indian Climate Gimmick!

The Union budget 2021-22 was placed in the Parliament a few days ago. Taking a quick look at its Environment and Climate provisions, here is a brief snapsl of the dismal picture of the Modi governments "Environmental Championship" (after all, he was conferred the "Champion of Earth" 'honour' by the UNEP a few years ago) and his "Great Climate nse".
