

## The Great Indian Power Crisis

Soumya Dutta finds that a cocktail of poor planning, slow transition, financial mess and climate change are the key factors behind the power crisis. [More >>](#)

## Can RE Projects help in saving India's Protected Areas?

While we see positive strides in the transition to renewables, the Govt should take measures to phase out thermal power plants near protected areas. [More >>](#)

## Designing a Low Energy Home

The most important aspect of a sustainable house or infrastructure is to create one that consumes less energy in both its production and operation. [More >>](#)
